

Early Recovery Factsheet

Relief saves lives-early recovery builds futures

28nd July 2011

Early Recovery Highlights

Funding gap to meet critical needs is around US \$ 413 million as of July 2011
 Essential medicines provided to more than 14 million people
 Over 350,000 malnourished children served through feeding centers
 WATSAN services provided to 1.6 million households
 Around 64,000 transitional shelters completed and another 2 million underway
 Over 700,000 provided educational support
 3,637 community infrastructures restored/built benefitting 1.5 million people

Affected population and damage

Sector	Need	Sector /thematic working group	Need
Agriculture	2.47 million households affected	Non-Farm Livelihoods	60% households without main source of livelihoods & 53% report decline in income
Food Security	5.6 million people food insecure	Governance	1,355 public service buildings & facilities destroyed
Health and Nutrition	6.2 million need access to health care	Gender	Out of 1.5 million registered households, 8% headed by women
Education	1.3 million affected	Protection	150,765 vulnerable children, 120,038 elderly at risk and 87,160 persons with disabilities.
Water & Sanitation	800,000 households in need	Disaster Risk Management	An additional USD 10.66 million required
Housing	1.6 M houses destroyed (completely and partially). USD 213 million prioritized for completely destroyed houses.	Environment	USD 48.4 million needed out of which USD 5 million required for prioritized needs
Community Infrastructure	144,000 destroyed		

Sectors	Response to date
Agriculture and Food Security	Agricultural support provided to about 46,300 households: 24,500 reached through Cash for Work for rehabilitation of irrigation systems; 21,250 received agriculture inputs for the Kharif season; over 500 assisted with livestock interventions. Approximately 293,000 households reached through ER activities before April 2011.
Health and Nutrition	36,356,090 consultations held. Disease Early Warning System responded to 2772 alerts and controlled 483 outbreaks. 10,354,300 water disinfection chemicals distributed. Essential medicines provided to 14,719,023 people. Malnourished children (95,397 severely, 256,226 moderately) and 159,750 pregnant and lactating women served in feeding centers.
Education	745,000 affectees reached (297,040 girls and women) through school renovation, temporary school structures, reactivation of parent teacher association, teacher training and Parent-Teacher Councils.
Water and Sanitation	1.6 million households reached: hand pumps installed/repaired, water supply schemes provided, 30,000 households provided latrines, hygiene sessions held for 1.2 million households in four provinces.
Housing	63,705 Transitional Shelters mostly completed. Disaster Risk Reduction measures for floods and earthquakes underway for 144,000 registered One Room Shelters (50,000 estimated One Room Shelters on a self-help basis). Monsoon Shelter Contingency Plan finalized. Projects for over 2,000,000 shelters committed
Community Infrastructure	Restoration of 3,637 community infrastructure schemes completed benefitting 1.5 million people (300,000 individuals participated through the Cash for Work in 11,00 villages)
Governance	More than 1,000 one-window operations being established in 29 districts connecting over 4000 beneficiaries to restore businesses, livelihoods and provide legal aid services.
Cross cutting themes	Response to date
Gender	Thematic Group on Gender functional at the central, provincial and district level to ensure that gender concerns are adequately reflected in sectoral strategies (membership includes over 60 organizations).
Protection	Training on protection, Gender Based Violence, ageing and disability provided in Sindh (will start in Punjab) to 69 INGOs/NGOs/CBOs and government departments. Efforts underway to include the most vulnerable in Cash or Work. 12 women-friendly spaces linking GBV survivors to medical, shelter, psychosocial and legal services
Disaster Risk Reduction (DRR)	300 community members trained in Disaster Risk Management. Approximately USD 1 million provided for capacity enhancement to PDMA and DDMA for disaster preparedness and response.
Environment	15,560 solar energy units installed. 450 transitional shelters completed for 3,143 beneficiaries. 100 community members trained in designing and constructing fuel efficient mud stoves; 100 stoves built. 10 biogas plants constructed.
